Course Content

Audience EYFS Professionals

Following the introduction of the new Development Matters guidance for EYFS we are left with the continuing conundrum of what does progress look like for EYFS pupils with SEND? How do we overcome the barriers? What are the best next steps?

This discussion group aims to bring together professionals from mainstream and SEND settings to discuss and problem solve around the challenges of assessing and identifying progress for pupils with SEND in the EYFS setting. Delegates should bring case studies of pupils they would like to discuss.

How to book
